ADMINISTRATIVE REGULATIONS

No. 4118.5(a)

**RE: Employee Use of the District's Computer Systems
Personnel – Certified/Non-Certified**

Approved: 10/6/2015

Revised: 2/12/2018

Introduction.

Computers, computer networks, Internet access, and electronic mail (popularly known as "e-mail") are effective and important technological resources in today's educational environment. The Board of Education has installed computers, a computer network, including internet access, and an e-mail system, to enhance the educational and business operations of the district. In this regulation, the computers, computer network, Internet access and e-mail system are referred to collectively as "the computer systems."

These computer systems are business and educational tools. As such, they are being made available to employees of the district for district-related educational and business purposes. All users of the computer systems must restrict themselves to appropriate district-related educational and business purposes. Incidental personal use of the computer systems may be permitted solely for the purpose of e-mail transmissions and access to the Internet on a limited, occasional basis. Such incidental personal use of the computer systems is subject to all rules, including monitoring of all such use, set out in these regulations. Moreover, any such incidental personal use shall not interfere in any manner with work responsibilities.

These computer systems are expensive to install, own and maintain. Unfortunately, these computer systems can be misused in a variety of ways, some of which are innocent and others deliberate. Therefore, in order to maximize the benefits of these technologies to the district, our employees and all our students, this regulation shall govern all use of these computer systems.

Monitoring

It is important for all users of these computer systems to understand that the Board of Education, as the owner of the computer systems, reserves the right to monitor the use of the computer systems to ensure that they are being used in accordance with these regulations. The Board of Education intends to monitor in a limited fashion, but will do so as needed to ensure that the systems are being used appropriately for district-related educational and business purposes and to maximize utilization of the systems for such business and educational purposes. The Superintendent reserves the right to eliminate personal use of the district's computer systems by any or all employees at any time.

ADMINISTRATIVE REGULATIONS

No. 4118.5(b)

Privacy Issues.

Employees must understand that the Board has reserved the right to conduct monitoring of these computer systems and can do so despite the assignment to individual employees of passwords for system security. Any password systems implemented by the district are designed solely to provide system security from unauthorized users, not to provide privacy to the individual system user.

The system's security aspects, message delete function, and personal passwords can be bypassed for monitoring purposes.

Therefore, employees must be aware that they should not have any expectation of personal privacy in the use of these computer systems. This provision applies to any and all uses of the district's computer systems, including any incidental personal use permitted in accordance with these regulations.

Prohibited Uses.

Inappropriate use of district computer systems is expressly prohibited, including, but not limited to, the following:

- Sending any form of solicitation not directly related to the business of the Board of Education;
- Sending any form of slanderous, harassing, threatening, or intimidating message, at any time, to any person (such communications may also be a crime);
- Gaining or seeking to gain unauthorized access to computer systems;
- Unauthorized sharing of network, email, or application passwords.
- Downloading or modifying computer software of the district in violation of the district's licensure agreement(s) and/or without authorization from supervisory personnel;
- Entering into an agreement with a software, app, or web site operator that collects, maintains or uses student information without proper authorization;
- Sending any message that breaches the Board of Education's confidentiality requirements, including the confidentiality rights of students;
- Sending any copyrighted material over the system;
- Sending messages for any purpose prohibited by law;

ADMINISTRATIVE REGULATIONS

No. 4118.5(c)

- Transmission or receipt of inappropriate e-mail communications or accessing inappropriate information on the Internet, including vulgar, lewd or obscene words or pictures;
- Using computer systems for any purposes, or in any manner, other than those permitted under these regulations.

In addition, if a particular behavior or activity is generally prohibited by law and/or Board of Education policy, use of these computer systems for the purpose of carrying out such activity and/or behavior is also prohibited.

Disciplinary Action.

Misuse of these computer systems will not be tolerated and will result in disciplinary action up to and including termination of employment. Because no two situations are identical, the Board reserves the right to determine the appropriate discipline for any particular set of circumstances.

Complaints of Problems or Misuse.

Anyone who is aware of problems with, or misuse of these computer systems, or has a question regarding the appropriate use of the computer systems, should report this to his or her supervisor or to the Information Systems Manager.

Most importantly, the Board urges any employee who receives any harassing, threatening, intimidating or other improper message through the computer systems to report this immediately. It is the Board's policy that no employee should be required to tolerate such treatment, regardless of the identity of the sender of the message.

Bloomfield Public Schools
Notification of Acceptable Use of Technology

All employees must sign this Notification of Acceptable Use of Technology form when first employed and annually if there is a change in district policy

- I have read and understand BOE Policy 4118.4: Notice Regarding Electronic Monitoring (a copy of which is available on our district web site) and understand that the District may access and monitor my use of the Internet, including my email and downloaded material, without prior notice to me.
- I have read and will abide by the BOE Policy 4118.5 and Administrative Regulations: Employee Use of The District's Computer Systems (a copy of which is available on our district website).
- I further understand that should I commit any violation, my access privileges may be revoked, and school disciplinary action and/or appropriate legal action may be taken. In consideration for using the district's technology resources and having access to public networks, I hereby release the School District and its Board members, employees, and agents from any claims and/or damages arising from my use of, or inability to use the Internet.
